

KPWCA Board Meeting July 21st, 2026

Members Present:

Helen Santoro

Rose Cox-Galhotra

Pamela Thibodeau

Jonathan Reiser

Meeting was called to order at 7:01pm.

Summer membership meeting

Pamela laid out plans for the park membership meeting. Scouts will be there to make s'mores, and we will recognize longterm volunteers with an appreciation certificate. Helen will have certificates printed. Jonathan will have signboards changed to promote the event. Jonathan noted that he and Tim have worked out a Google sheet to simplify signboards.

Traffic Calming

Rose: Committee is proposing 4 speed devices along Commonwealth, and they have permission from owners for all four. The goal is to protect crosswalks. They've given all forms to FCDOT, and are working with Fire and Rescue to see if they want cutouts, and to do a site review. There is a narrowed scope of effort to Richardson, and FCDOT will review.

The next step is a community-wide meeting. FCDOT will be at the meeting and the committee will also provide their perspective. The committee has asked FCDOT for additional detailed information on the speed study. The data shows speed ranges at each hour of the day, and shows that speeding is a continual issue, and not confined to certain times.

Several people have shown willing to distribute flyers and knock on doors. The committee will also need to print and distribute ballots when that point comes.

Helen suggested that the committee invite local fire officers to the meeting, to talk about their experiences with speed devices, and also a community police officer.

Meeting was adjourned at 7:35pm.
